KEYMACRO is the first ever true standalone media transcoder that transcodes your media (videos, TV shows, and podcasts) into the format of your choice (MP4, 3GP, MP3, AAC, OGG, WMV, WebM, etc). Keymacro allows you to choose your output format from a large list, fast and easy. It also features automatic and intelligent transcoding, which means that your video files will be transcoded automatically for you when you add, rename or delete a media file. The software will also create you a playlist of your media files. This way, you don't have to worry about maintaining it. Just add your videos or podcasts and Keymacro will take care of the rest. Keymacro is a fully standalone solution. You don't need to install anything else to be able to use this software. No installation or setup needed. Simply unzip the folder and run Keymacro.exe Keymacro is a 100% trusted and completely free software.
