In theaters everywhere this weekend, a new documentary takes a hard look at the vast impact of soy milk on American grocery stores. Soylent, subtitled The Movie, is really a film about the millions of gallons of soy milk pumped out each year for sale in America. It makes for an interesting personal portrait of a humdrum yet very busy young woman who lives with her boyfriend and his wife in Brooklyn. Theirs is a striking scene, juxtaposed with the regimented rhythm of the soy milk factory in east Asia. All of this to create a bottle of pasteurized soy milk that at best can be described as food-like, since it contains no animal products and is kind of bland. And so a proper social history of soy milk in the United States d4474df7b8
